### Lacing and Bustles.

woman runs to flesh; so does the elderly American; and in time each of them learns to accept the fact, and sink down into comfortable age, with its attendant inches and avoirdupois. But the natural size of a waist to accompany a thirty-six or thirty-eight inch bust measure would be twentythree to twenty-four inches; and when it is reduced by compression to from eighteen to twenty inches, this is an actual loss to beauty of form as well as detrimental to the health. Doubtless there are some foolish girls and women in America who crowd their breathing apparatus into smaller space than nature intended; but the average size of the American waist being less, there is perhaps less tempbeing iess, there is pernaps iess temp-tation to reduce it, and the general appearance of women in any large American city shows that the nat-ural standard is more nearly pre-served than in London at the present time. On the other hand, we sir more in the matter of bustles and tournures. Such a shelf or projecting bracket at the back of the skirt as may be seen any day and any minute of any day upon Broadway is not vis-ible in any part of London. The ex-tension of the dress is confined to ruffles and to two or three steels at the back, or to a pair of steels and a pad or small "mattress" fastened on the tailor-made (cloth) gowns to the skirt itself. Women of fashion have quite discontinued the use of the removable excrescence called the bustle, nor could one be worn with the close side draperies which are so much used and which so perfectly outline the form.—(London Letter in Minneapolis Press. Rev. Sam Jones' Sayings.

Cure For Piles. Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some effection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspirstomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Bosanko's Pile remedy, which acts directly upon the parts effected, absorbing the Tumors, allaying the intense itching, and effecting a permanent cure. Tired and Languid Women.

How many women there are of whom these words are true: "They feel languid and tired, hardly able to bear their weight on their feet, the bloom all gone from their cheeks, ir-ratable and cross without meaning to be, nerves all upset, worried with the children, fretted over little things, a burden to themselves, and yet with go acute disease." There is one crying sin, however, of which the English women of this generation are more guilty than their generation are more guilty than their American sisters, and that is the sin of tight lacing. The waists of the majority are absurdly drawn in, the more absurdly because it destroys the roundness and perfection of the English figure.
